

## CHATEAU MCELY SPA HOTEL & FOREST RETREAT

*...honey, silk & pearls...*

### Your wedding tree

Marriage is an important step in your life. You will spend many years nursing, cultivating, and evolving your relationship, and it will grow with you just as our beautiful Chateau trees. If you would like to combine this important step in your life with something exceptional that you can experience together, then plant your wedding tree in our English Park. Your tree will grow together with your relationship, and it will eventually tower beside our Chateau, just as the memory of the most beautiful day of your life. This way, you can also create new life into our ancient park, which will remain here for your children and other generations. Your tree will carry your names and the date of your wedding for distant years into the future.

**Libretto of our Chateau's English Park** The words of our talented gardener,  
**Ondřej Fous:**

*A new wave of life-bringing thoughts came to the Chateau Mcely Park. It is not an allscattering storm; it is a stream that carries a vision. It dares to differentiate grain from weeds, and wash away everything that arose here due to negligence. The stream will keep, with respect, the family jewels of the place, it will wrest the men's work from the snares of all-encompassing nature, re-polish memories, and pour the whole chalice of new life into old veins now free of dust. A medieval location, traces of a baroque concept, a skeleton of a park from the second half of the 19<sup>th</sup> century, a legacy of a garden from the years between the wars. You will find footsteps of past generations everywhere you go. Old observers, the aged trees, experienced a very difficult time in Mcely, but many of them will return to their beautiful form. In the empty spaces we will plant a new generation, which will prepare itself for its ascension into the main role in the years to come.*
